

## **AMI Adolescent Guide (12–18) | Montessori Hossegor**

Montessori Hossegor seeks an AMI-trained Adolescent Guide to launch our foundational Erdkinder program. Working knowledge of French and English is essential.

This role begins as a Program Development mission to build the curriculum and operations true to Dr. Montessori's original vision. We offer maximum pedagogical freedom and professional legacy, set in the highly desired coastal environment of Hossegor.

**The Mission** As our foundational Erdkinder Guide, you will architect a prepared environment for children transitioning from the Second Plane into adolescence. These emerging adolescents come with a solid foundation in Cosmic Education, well-anchored in Dr. Montessori's core concepts of *La Nazione Unica* and with the academic discipline required to grasp and navigate the interdependent nature of the universe.

Your role is to facilitate their transition into Supranature, with a profound focus on the moral valuation of the individual to support prosocial independence. You will lead the development of a micro-economy, identifying novel opportunities within our French coastal society—whether through a pedagogical farm, craft-based enterprise, or maritime project. While specific experience in startup operations is not strictly required, a radical willingness to allow adolescents to navigate the objective social contracts of work, exchange, and community governance is essential.

You will 'nudge' the collective toward normalization, observing as they practice reciprocal altruism and economic responsibility. While the curriculum is need-based, you will foster academic rigor as the adolescents' interests evolve. We seek a leader who can balance Dr. Montessori's rigorous standards with the grit required to build an authentic program from the ground up. Understanding or researching moral development, particularly as it pertains to modern society's use of AI, will be an ongoing area of focus and adjustment.

By following the adolescent, you will always find support in our Montessori Hossegor administration and community.

**The Opportunity** While compensation is reflective of a small school, the reward is pioneering authenticity and profound purpose. If your mission is pure Montessori, apply now.

Our School Calendar can be found online on our website : [www.montessorihossegor.com](http://www.montessorihossegor.com)
